Protecting Education

Good practices in implementation and coordination

12 NOVEMBER 2026
Thursday
15:00 CET · 14:00 UTC

No single actor can protect education alone. Education Cluster coordinators, the Global Protection Cluster and national authorities share how they coordinate to prevent and respond to attacks on education, with the *Safe Schools Declaration* as a common framework.

Education under Attack 2026 · data for 2024–2025

9,259

attacks on education and incidents of military use, up more than 50%

10,600+

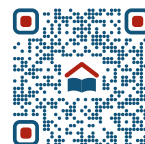

students, teachers and education personnel harmed

2,100+

cases of military use of schools, double the previous period

Organised by the State-led Implementation Network on the Safe Schools Declaration (SSD Network), the Global Education Cluster and the Global Protection Cluster, with Education Clusters and national authorities of Safe Schools Declaration endorsing states.
